## PROPERTY DETAILS

Where design meets serenity, this extraordinary contemporary home rises above the ordinary. Rebuilt & reimagined in 2022 as a designer's personal sanctuary, every detail reflects beauty, intention, & ease of living. Step inside to sweeping views & light-filled, airy interior. The showpiece kitchen is a masterpiece — Thermador appliances, endless counter space, and a flow that invites connection. The dining area, complete with a 308-bottle wine fridge & wet bar, was made for evenings that linger long after the last toast. The living room's sleek new fireplace glows with warmth and style, while the main-level primary suite offers calm luxury: steam shower, heated floors, private laundry. Upstairs are two spacious bedrooms, a large bath, family room, & wet bar. Downstairs, a private walkout suite for guests or business, with two flex spaces opening to the lower deck, complete with a steaming hot tub with incredible mountain views. Every system was redone in 2022—septic, roof, boiler, AC, water filtration, electrical, siding, insulation, & more. The home was recently further elevated with extensive luxury, energy & technology upgrades, including smart home features, a full solar panel array with Powerwalls so the home never loses power during an outage, motorized shades, & full security system. The original 1962 build is nowhere to be found in this completely rebuilt home! A 200 sq ft storage building added in 2024 enhances functionality. The flat, usable land is ideal for horses or an

ADU. Outside, relax beside the fire pit, or watch the seasons shift across the mountains from your choice of decks. Though it feels worlds away, the location is very convenient. Just 3 minutes to Evergreen's charming shops, trails, rec center & art center—only 6 minutes to I-70 for quick trips to Denver, DIA, or the slopes. Make this your new home, where modern design meets mountain soul!
