PROPERTY DETAILS

Welcome to this beautifully updated duplex in one of Denver's most cherished neighborhoods, near City Park, the Denver Zoo, and the Museum of Nature & Science. This cozy home features new hardwood floors and fresh paint throughout. The kitchen boasts elegant butcher block countertops, blending functionality with charm.

Major systems have been updated, including a new electrical panel, septic system, and gutters. Denver County has also completed street-level pipe replacement, ensuring solid infrastructure.

Step into the private backyard garden, perfect for coffee or entertaining, and enjoy the covered front porch. With a walk score that offers easy access to restaurants and parks, and downtown just 10 minutes away, this is city living at its finest. Enjoy the best of Denver right outside your door!
